Facebook Posting Policy

Aims

This policy offers guidance on posting items to the FOPL Facebook Page.

What should be posted?

FOPL is an independent group dedicated to the promotion, support and improvement of the Library Service in Penketh. Therefore, posts on our Facebook Page should be relevant to Penketh Library.

In addition, information about the Library Service in Warrington may be posted where this could be of interest to Penketh Library users. For example, events or services available in another Warrington Library.

Postings which promote reading are also acceptable.

The preferred language for postings is English. When the post is in another language, an English translation shall be supplied and shown in addition to the post. For example, the translation could be provided in plain text format and added to the post in the header field. This enables the poster to know what is being posted. Also, English speakers who view the post and do not understand the other language will not feel excluded.

What should not be posted?

Items which have no relevance to Penketh Library (or the Library Service in Warrington) should not be posted. This will avoid the risk of the FOPL Facebook Page becoming just another general notice board for our area.

Also, content which does not comply with Facebook's Terms and Policies should not be posted. At the time of writing this document, these may be found at:

https://www.facebook.com/policies_center
